Statistics on Grade Distribution

Civil Engineering[1]

Final Grade Category[2]	Definition[3]	Total Graduates[4]	Percentage (%)[5]
Excellent	Students show top-notch learning ability and professionalism, excelling in courses and demonstrating strong innovation and problem-solving skills, with outstanding overall qualities.	116	27.8
Qualified	Students fulfill basic graduation requirements, pass all courses, master fundamental knowledge and skills, and comply with school rules, thus being qualified to graduate.	288	69.1
Fail	Students fail to meet graduation standards due to incomplete studies, course failures (even after retakes), serious misconduct, or lack of necessary competence.	13	3.1

Additional note: Statistics are based on students' academic results upon completion of the standard 4-year study period.

[1] Please insert name of the study programme
[2] *Final Grade Category:* The classification of final degree grades based on academic performance
[3] *Definition:* Explanation of what each grade represents in terms of academic achievement
[4] *Total Graduates:* The number of students who received this final grade (within the last 5 years)
[5] *Percentage:* The proportion of graduates receiving this grade relative to the total number of graduates
